

Stephan Carroll

Stephan Carroll is a contemporary classical artist who has been playing the piano for over 20 years. He has been recording original compositions for over 10 years, and has recently begun composing full orchestral scores.

Although he has played piano for over 20 years, he has had no formal music education outside of piano lessons. He has not studied composition or classical orchestration techniques. Rather, he has spent the last several years listening to a wide range of orchestral music and learning to recreate various styles on his own.
